Fruit Ridge Notes - Wednesday - February 13 - 2019

Hello from the Blowin & Snowin 25°F West Side of Beautiful Downtown Kent City !!!!

Seriously FolksThis Weather is **Pure** Mid-February-West-Central-**Michigan.....**

******Thanks to Claude DuBois--AEF-Global** for making the Trip from Quebec City to Kent Cityto do our small Group Meetings here in our Conference Room--my Office--Fruit Ridge Ave. The Airlines messed him up badly.... Claude didnt get here until after the Breakfast & Lunch Meetings were adjourned....But he did a Bang-Up Job on the 4.30pm Meeting.... Deanna and I handled the earlier Meetings, as Claude had EMD us the PowerPoint Presentation

Also Big-Thank-You-Very-Much to my Lovely Bride and her DeeTeam for their very nice Presentations for Breakfast & Lunch Huge Thanks !

******Some Folks** mentioned at a recent Meeting that they had only '*pretty good*' ...or '*fair*' results last season using a fairly *new* Fungicide product.... 2 Applns.... *total \$65-\$70-Ac*. They could have used 3 CS2005 Apps and 2 FungOut Apps for that same total money. It just bothers me Sooo Much It hurts my soul....when Grower Pals get let-down in such a costly manner.

******Diuron ...the ol' Karmex...????a R.U.P...????** Apparentlylike on everything....??? But just in Michigan....???? ...on all Crops. The MSU-E-154 is quite Vague. But MDA-USDA tells us-RGSSs- that we have to Report all the Diuron Sales as RUP. But 'Agrian and MSU are very Vague ... Kinda screwy. But just please be aware that we need to consider it RUP.

**** **And Thanks to All you Guys** that made it in here Yesterday in spite of the weather conditions to get the Inside-Scoop on the 'New-to-Us-OMRI-Listed' **BioProtectPlus** and the **FungOut** BioPesticides from AEF-Global. I was so impressed & gratified that so many of Ya's made it in !!!!

Happy Hump-Day Afternoonr
