Fruit Ridge Notes - Saturday - June 13 - 2020

**Good Saturday Morning a Very Nice Saturday Morn...
Cool...Zero Humidity... Warm Sun...**

WunderGround says Sun for 9 of next 10 Days, with the T-Storms still in for Fathers Day...8 Days Hence....

....And... Also...a **Reeaally Good Saturday Morning** because that last Rain-Event did not make a Certifiable-Infection....👍...And MSU Amy and her HiTech-Instrumentation now saying that **'Primary-Scab-Season is Over'** for **2020** !!!!!

June 12---Yesterday--I believe that is about the Avg-Date for her saying that...???

😊👍 Very Nice Feeling 😎👍

*****But....So...Now** There's Scab-Issues **only** in those Blocks where there's some 2ndary-Stuff to conquer...??

You know "the Drill"..... My only concern is for your CheckBook...that you **Remember** that the Full-Rate-Captan80WDG [**\$17**] gets you thru the "Drying-Up-Burning-Out-Secondary-Process" in the same amount of time that adding a \$37-Ac-Newer-Chemistry will.

You're allowed 40Lbs-Ac-Captan80-per-Season....Zero-Da.PHI... Not a R.U.P...

Ya really wanna add a Strobie..?? Then do Flint Extra in the next 2 Apps-- 2.5 oz.Ac==\$19..Because this also helps huge against Mildew...

Ya wanna add a Sterol Inhibitor..?? Do 8oz-Ac-Indar2F==\$18...the next 2 apps...This

also helps Huge against Mildew.

*** **Some of You Noted in agr.news.....** Jeff is telling his Readers to **"keep a tight schedule"** in their **F.Blight War** in those Beautiful Young Blocks where they *have the Symptoms*. Lots of...Most of ...those N.Y.Folks still have Strep-Sensitive-FBlight-Inoculum... So...Lots of-Most of those Boys doing 1 Lb.Strep with 1 Pint CS2005 as a regular "Protectant" Program.... We sell "'005'" into that Wayne County Area by Truck-Loads.... When they get into a "'Symptom'" Scenario, they simply "Up the Rates."...

I have quite a few Readers out in Wayne County NY.....I'm asking them to Please Report to me if any of them that were doing the CS2005 Program ended up with any Symptoms....??? Please Report.

In general...Wayne County-New York has Too Much....But it's mostly Blowin towards Vermont-NewHampshire....

****** Alicandro is also Scolding some Guys** that "'Spray their young Non-Bearing Blocks every so often with whatever's left in the Tank"...????

Jeff says this will likely lead to....

"Many more years of Spraying those *Still-Non-Bearing-Blocks* every so often with whatever is left in the Tank."

Because this Tank-Mix is Sooo Low-Cost-Cheap-Hi-Efficacy....I'm gonna mention it again....Repeating myself from acupla days ago....

In New Blocks where I see Symptoms...and in those Blocks where I don't....

Per-Acre-Rates....already having Dialed-These-Down for TRV...

.....and using 1-Pint-per-100-Ga.-InSpray-90 N.I.S.....

Per-Acre:

12 oz. Strep

1 Pt. SAver

1 Pt. "005"

2 Pt. Formula-II-SW

2 oz. Imidacloprid4F

3 oz. LambdaCy-Warrior 1EC

1.5 oz. Kudos 27.5WDG ProhexadioneCa

1 oz. BioShot

....I'm Defending for F.Blight++Aphids++Borerres++

Hoppers++Mildew++Scab++Much More...

...and all this above Tank-Mix for only a bit over

half-the-cost of a Kasumin-Appln....!!!!

Praying Gods Coolest Stuff for You & Yours !!!!
