Fruit Ridge Notes - Monday - July 8th - 2019

Hello from Fruit Ridge Avenue ... Hoping You All Had a Truly Great Holiday !!!

... Something about the **4th** ...Always brings back some very Cool Memories....

****** My Pal Jeff Alicandro** is really emphatically warning All his Apple Guys about protecting Young Non-Bearing-New-Blocks ...and Nurseries, against FireBlight.

It's just Soooo Hot....and with high Humidity ... and with so much lush tree growth....

He has proven that Open Bloom is not required for a serious Infection.

The 1st Product he mentions to use is of course **"005"**...the CS2005 from MagnaBon. Just stay protected with 1 Pint-Acre.

And, for any Trauma event, in Wayne County N.Y., the Strep still works for most everyone at 1 lb. And a bunch of Ridge Growers still get results with Strep.

Trauma is any Wind big enuf to tear leaves ...and of course Hail.... 1 Lb.Strep with 1 Pt."**005"**.

I have a bunch of Guys now that always put 1 lb.DiKaP with their **"005"** no matter what-where-why they're applying the **"005"**. DiKaP is one of our impressive Redox Products. It really is a huge help for the little Trees also....

****** Researcher-Consultant-Pals.....** Yes Indeed.... I have a Bunch of those.... Some with Universities..... some Independents.....

Most are Younger than I am, but then so is most

Everyone... ☹️

I visit nearly every day with Industry Friends-Associates from all over the place...mostly here--USA. I frequently share some of their verified findings in these FRNotes....

...and Yes Indeed, Alicandro might be my Fave...??? ...Why ??? He just don't care what anyone else thinks... He knows what he is lookn at.

If somethin Works, he tells us. If somethin doesnt work...??? You dont hear another word.

***** There is way too Much** Secondary Scab all over the place. Lots of Captan80 goin out.....

We're hoping you are squeaky clean. If not...?? **...Please** don't get talked into 1 or 2 or 3 App\$ of any of tho\$e things that co\$t a lot.... Your Full-5Lb-Rate-Captan80 every 7 Days is going to stop that 2ndary ...It will Burn it Out... and just as fast at \$16-per-Acre as you

14050 Fruit Ridge Ave

We're on the Web!

See us at:
www.reisters.net

will by nearly Tripling your Co\$t by adding a pricey-newer-Chemistry to the Tank. Did you notice that all of those "other" Recommendations always include that 5 Lbs.Captan80-Ac...??? Hmmm.....

Your Seasonal Use-Limit with Captan is 32 Lbs.A.I....Thats 40 Lbs 8oWDG... That's 8 Apps at Full-Rate.

The Hot Weather will be your Friend for Burning out the 2ndary.
**** **So.... A Friend** googled our "[14050 Fruit Ridge Avenue, Kent City, Michigan](#)" Business Address, and he is asking me about "**L.C.D.S.F.**"

....That stands for *Lutheran Christian Day School Fund Raisers*

It's a '[501-c-3-Non-Profit](#)' started apprx 10-12 Years back by a Group of Friends and Alumni of Trinity Lutheran School--Harding St.--Conklin, right next to Trinity Lutheran Church....and it uses our Bizz-Address. This Group raises money for the Tuition Fund at TLS.

....We were hosting most of the Bizz-Meetings here and handling a bunch of Event-Details-Etc, and the Group wanted us to use our Bizz-Address for the LCDSF Official Address. Our Treasurer from the out-set has been Paul Wegener, a Banker Pal at Mercentile Bank, and also a Member of TLChurch whose Children attended TLSchool.

Please Note... The "Big Event" of the Year is a "Dinner-Party--Services-Auction"Always in November.... Always a very Superb Dinner & Bar and Really Fun Silent & Live Auctions. This Fall I think it is gonna be Nov.**2nd**....K-C-Hall---St.Vincent DePaul-Banquet Hall---32nd Ave--Conklin.

From the Beginning, we have always had a very impressive Menu and Libations Presentation for only \$25-per-Person-All-Inclusive.... Big Crazy Fun.... We always have a Theme that really keeps things interesting.

More Details to Follow.... But First, Lets enjoy our *Fruit Ridge Fest* - 2019 !!!! Coming Up !!!! FridayJuly 26th

**** **Sweets Guys...Use Flint rather than Sovran...**

...Flint in your Apples that are anywhere near Sweets....the Drift and also Spray-Tank-Residues of Sovran can cause seriously ugly Phyto in those Sweets.

*** **SWDs...** Grandevo...??? Yes ...Good Feed-Back. Use the 3 Lb-Ac-Rate. Zero [-o-] Da.PHI

...Stone Fruits... Imidan= 7 Da.PHI... Danitol= 3 Da.PHI
Dont use Imidan on Sweets..... Phyto.

Have a Safe & Blessed Weekr
