Fruit Ridge Notes - Wednesday - April 15 - 2020 - 2nd Edition

Dear Fave-Gals-Guys-Associates

That ""*WunderGround*"" Crew actually was **99%** Close....
They told us SunShine for today ... and the SunShiine has been pretty Great 😊👏!!!...inspite of the SnowStupidNess early-on.... 😞
And.... They're calln for 9 out of the next 10 Days to have serious SunShine !! 👍😊
Scabbies hate SunShine....
A light Breeze with big-dose-SunShine is the best Scab-I-Cidewithin those 1st few hours of a Wetting.

**** **Polyram... Yes...** There is maybe only one other Product made from "Metiram" 😞 ...Cabrio ..?? ...from BASF...
The Researchers say Polyram is weak on Scab compared to other EBDCs... and EBDCs are a bit weaker than Captan.

**** **Great discussion !!!** Yeah... So....
The "Nitrogen-Fixing" is what you're referring to.... This is a real thing ...
So much of the 'N' we \$pend \$eriou\$ Dollar\$ on...?? ...really doesnt get a real chance to help where we plan on it helping.
And yes... it does get complicated.
Several Guys I work with have ...over the Years.... proved to themselves that a bunch of their "N" Input\$ Co\$t\$ really got them not much good, and some pretty bad Results in Quality Degradation.
It is Notable that almost 78% of the air we breathe is 'N' ... And....
....All of the HiCarbon Nutrients and the Microbial-Supplementation you are doing all helps the Green-Growing-Plant---Trees--Veggies--Blues--Vines...Etc... to Use the 'N' available to it, with the help of the Suns-Photosynthesis....??? ...A good Teacher can explain this to where I can almost understand it.... 😞??
My 'BottomLine' TakeAway is just dont Over-Do "N".... as OverDose Hurts much more than it ever helps.
Spoon-Feeding that GreenFeed-27 has really been working extremely well.... And.... for almo\$t free compared to what your Grand-Daddy used to do. Of course....what your Grand-Daddy did in the 60's was costing \$9 Now it's \$135..... 😞😞😞😞
Also ... the LowRates-GreenFeed-27 ...as a Foliarcan never "Acidify" your soils.... 👍

**** **Hero** **Insecticide... HmMMM ...**

...I see what You mean It sure does seem to me also, that it was, in previous Years, labeled for several more Crops that we work with??? Maybe not 😞 It is still Labeled on Blues...and some other Berry Crops...and GrapesLots of Veggies ...

It has Mustang Maxx and Bifenthrin in it I Love this stuff.

Please Remember..... the Label is the Law. If you have Products on the shelf that you purchased 1-2-3 Years ago... They are perfectly Legal on the Crop you bought it to use on... if its on the Label.

There are Political'"Deals"' made every day where a huge Manufacturer gives up portions of his Label to make a "Label-Gain" on certain Crops in other States... They are hard to keep up with. But... Always know that Deanna and the DeeTeam will have Products that are Legal in Michigan for Your Crop Protection...!!

**** **Oh My Yes !!!!!** The **Redox Crew** has Really taken You **Organic Production** Folks Really Seriously !!!! We now have 5 Organic-Labeled Redox Wonder-Drugs MainStay-SI ... H-85 ... TriPlex Micro TriPlex Zinc ... MainStay Calcium Amazing LineUp for serious Organic Production !!!!

I will make it a point to send an attachment with the whole List of the OMRI-Organic-Labeled Products that we work with

Warmest Regards
