Fruit Ridge Notes - Monday - July 15 - 2019

Wow.... Some Real-Deal-Summer Weather

Sweet Fancy Moses it is seriously Hot !!! Sounds like this Entire Week is gonna Flirt with 90°F...

..... And Yup I Missed Ya Friday I never made it to my Desk... The Kids were keeping us busy getting Party Goodies around for the big ShinDig they

orchestrated at the K-C-Hall Saturday Evening for our 50th Wedding Anniversary.... Great Time.

Thanks to Deanna & Brian.....Dr.J and JenMatt & Lisa....
...and the Grand-Babies that all helped out so Much !!! Love Ya's !!!

****** It Sounds like we Now have plenty of the Azomar**

3oSG [generic **Assail**] in Stock againWe had quite a run on it last week and ran out temporarily....

This Xtreme heat is **Not** what we want for our **Blues** Grower Pals...

****** You Apple Guys** that Waged a serious OBLR Attack back at Petal Fall should not see real big-pressure now.

If Some need to make a Control-Effort for these...??? ... or any other Worms right now ???

Please seriously Consider the kinda-new BioProtectPlus....

It's a great performer. It's like a 'BT' but on Steroids.... and much le\$\$-per-acre-co\$t.

To Get a BT to perform like this you need more than the legal full Recommended Rate....Alot-\$\$\$...🤔 and even then, not as good.

Do 2 Pint - Ac - of this **BioProtecPlus** = \$15 👍👏 OMRI Listed
...Zero Da.PHI

****** Yup--JapBeetle** is going to be pretty much all over the place again this Summer.... But Easy-Cheap to kill....

Do that **\$5**-Combo...3.2 oz.Imidacloprid 4F & 5.12 oz.LambdaCy 1EC [Warrior]... Always do Full Rates of these...

It amazes me how many Pests are controlled by these 2 Ol-War-Dogs for only \$5.

****** Wow ... I Forgot about that**

That the Wayne County N.Y. Guys have Water pH out of the Well at 8.5...!!??? Several/Most of them.... 7.9 - 8.5 ...

We're on the Web!

See us at:
www.reisters.net

Around here it's 90% 7.7 - 7.8 out of the Well.
Anyway....Alicandro is reminding them to keep Tank-Mix-pH low for Imidan ...like 6.0 or less.
Most of You Guys do the 1 Pint-100-Ga.-**Indicate 5** that does all of the pH and Sequestering stuff...and serves as a LightWeight SpreaderSticker...
Whenever we are replacing a recommendation for "Oil" ...we use the InSpray-90 at 4 Pint-100g.... If we only want a nice poke of Spreader-Sticker - 1 pint-100g.
That Indicate 5 also serves as a Party-Mixer.... It really helps all the Tank-Mix-Partners play nice together.

**** **And Jeff also Says...**For New-Fast-Growing-High-Density-Blocks.... to bring them into Production Faster
1 - 2 Apps of **Motivate** [Ethephon]@ 16 - 20 oz-Ac...with 5 oz-Ac-**Refine** [NAA]... Between now and mid-August.
Don't do this when these Youngsters are Drought-Stressed.
And...Never make any Motivate [Ethrel] Apps when the Temps are flirting with 90°F....Low 80's is risky enuf.
Alicandro's Big ""**Wayne County Fruit Grower Tour**"" is Wednesday - **August 7**

**** **Remember...** our Annual **Fruit Ridge Fest** coming up 1 Week from this Friday- **July 26**
Right here at the Office-Warehouse Location - 14050 Fruit Ridge Avenue - Kent City ...
Just North of the John Deere Place.... It's a Party !!! Great Food and Beverages Classic Cars and Tractors on Display ...

Stay Cool.....r
