\*\*\*\* **OxiDate 5.0 ... Please** excuse my BrainFart... 😞

In Mondays FRNotes ...towards the end...I was talking about SummerDiseases... and mentioned our Fave "005" ....

and '**SaniDate 5.0**'... But.... I meant **OxiDate 5.0**... Works great "On Contact" with all Disease Pathogens Fungal and Bacterial.

...But Hey... The **SaniDate** is a serious ButtKickr as well.

SaniDate 5.0 has a EPA Label for **Killing** the Human **CoronaVirus**.

And the SaniDate **15.0** at the Fresh-Pack-Plant on the Packing-Line-Spray-Bar and Brusher-Rollers will take off a lot of the Sooty Blotch and Fly Speck Residues... 🍷👍

Lots & Lots of the OxiDate 5.0 goin out the Door these days....Stuff really does the job...

*And....Repeating.....*
