Fruit Ridge Notes - Tuesday - May 28 - 2019

Greetings From a Cloudy Fruit Ridge Avenue

At Gooding St. early Today, it really looked like it was going to clear up...but Nope.

... Misting Rain here Kent City.

*****Tarts.... Main Concerns now....** Leaf SpotBrown

RotCanker Mildew

PlumCurc Scale Borer ...some Rollers ...Black Cherry

Aphid

Question on "**Rhyme**".... It's a Sterol Inhibitor.... Kinda New....

another "Post-Patent" ... Same as "TopGard" = A.I. 'Flutriafol' ...

I think it's a good one to switch up to. But it costs a bit more per acre than other S.I.s.... @6.5 oz.Ac. [\$22]

Lookn at the MSU-E-154 Ratings, the 6 oz.Indar [\$13] is rated the same as 8 oz.Elite[\$9.50] on some Targets. On 'Brown Rot' it's rated **G/E** while Elite is **G**....

.... Rally @ 6 oz [\$17].... LunaSensation @ 7 oz [\$43] also Good choices.

I'd be lookn seriously at Tank-Mix *Syllit FL @ 1.5 Pint[\$13]

& *Teb45DF @ 8 oz.[\$9] & *CS2005 @ 1 Pint[\$8] ... for Disease Issues.... \$30-Ac.

...and *LambdaCy[warrrior] @ 5.12 oz [\$2.50] & *Imidacloprid4F @ 3.2 oz[\$2.50].... and maybe a LowRate 6 oz. Azomar [\$20] / (gn)Assail...??

If you want to do that Tank-Mix with the "005", pls do a Jar-Test with the Syllit.... Some folks used to have trouble with the old sludge coppers tank-mixing--compatibility with Syllit... But nobody has any issues with the **005**....that I have heard about.

****MSU-E-154 mentions 'Elite 45WSP'...Cant find it.

What it is = 'Teb 45DF' and Tebucon 45DF ...and TebuStar 45WSP And.... Use the full labeled rate = 8 oz-Ac. I'm not sure why E-154 says 6 oz.... ???

*****We Shouldn't be Lookn for AppleScab** to be done for 2 Weeks or more Yet ...

Its normally around June 12 ...apprx 1000 DegreeDays Base 42.

So.... Theoretically, this Season would be a few Days later. You all remember the process....

We're on the Web!

See us at:

www.reisters.net

1st = We determine that All Spores are Mature. And then
2nd=We need a good Wetting Event with No-Spores-Discharged
I'm thinkn

MSU Amy has all the Instrumentation to determine these factors. She is always as anxious to tell us it's over as we are to hear it !!!

*****Some Blues Boys....** Bloom TimeBut Gall Wasp Issues....
You almost have to go at night because of the Pollinators. Yes, even with the milder-Safer Chemistries.... like **BioCeres**.
And you have to put "**WetCit**" or "**Vintre**" or "**ORO-Boost**" with it to have any significant success.

And now is also a very good time to get some Fruit-Set-Nutrients on

....like *1 Lb.-Ac.-TriplexBoron ... *1 Qt.-Ac.-MainStay-Ca-S.I. ...and 1 Lb.-Ac-RxSupreme

I mentioned the "RidgeBioStim" Program the other day. These are some excellent Strategy Choices.

Really a Very Nice Recognition of Our Fallen Hero's and Veterans.... at the

Trinity Lutheran Cemetery Monday Morning Really Nice. We Thank & Praise God for their Courage.

And..... A very Cool Parade in Conklin at 11a. Mondayand a of course an Opportunity to Buy Beers for some of our BeLoved Veteran-Neighbors-Pals at the Conklin Bar after the Parade !!!

My Fave is Good-Ol-Boy Robert Jablonski--96 yr.Old WWII.... What a Cool Cat !!!!

All the Best in This "Short-Week"r
