from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Thursdays 2nd Edition - April 16 - 2020

### Hey Pals .... Me Again ...

That "Link" I gave you this morning ref'g the MSU-Zoom-Webinar ....???

Yup---But... We still need to be Registered the day before the Webinar....

Please refer to the FRNotes I sent Thursday--April 9th .... All needed Info was on that FRNotes...

Still only about **37°F** here.... **WunderGround** saying 5 out of the next 9 Days should give us some SunShine....

Could be pretty Cold again Sunday ....

\*\*\*\* **Yes .... More Blues**-Industry-Associates confirmed that in Michigan, the Average-Per-Acre-Yields are less than 5000 Lbs these days....

My Blues-Growing-Fave using the Redox-Strategy is at 15,000 Lbs... and has slashed his Input-Costs for the normal-conventional Pesticides by over 50%... Yup ....Facts.

\*\*\*\* **Amazing .... Simply Amazing**...that we can see more Green right now than we could 24 Hours ago !!!! How can it do that !!!!!!! Gotta be the Sun...???

\*\*\*\* **Strategizing .... Indeed... Those old S.I.s** are **Soooo** LowCostCheap...!!!

You asked about Propiconazole.... Tilt...

Stone Fruits .... 5 Apps of 4 oz-Ac-Each = \$3.35

Blues .... 5 Apps of 6 oz-Ac-Each = \$5.10 So....why would I not be Tank-Mixing the Old Sterol Inhibitors with my "**005**" and my SuperPhites=**K-Phite & FormulaII-SW**...???

Remember ....There are about 60 of these Propicon 3.6EC or Propicon 41.8%EC products when you look at Agrian-Site.... There are 3 or 4 with the Label we like in Michigan...

Also keep in mind, you can use this on Apples but only Non-Bearing .... We Gotta do it tho ...So Good for So Cheap ....

Blessings....
