Fruit Ridge Notes - Wednesday - June 26 - 2019

Hey Pals..... It's a Beautiful Sunny Day

Gonna be a lot like Summer for a Few Days....??? Most Forecasters seem to agree...??

**** Good Point concerning a Hot Issue !!!!

One of my Faves just mentioned that he will be doing mostly Night-Time-Spraying now.... in the midst of this nice Summer Weather.

It is very important to **Not Spray** when it's too Hot.

And Remember... the 80°F-Clear-Blue-Sky-Fierce-Direct-Sun is much different than the Over-Cast-Cloudy-80°F....

BottomLine....Spray really really early or really really late.... And then in the Heat-of-the-Day, take time to relax in the Shade with a cold Beverage. One Ol'Boy told me one time that you can Russet Apple-Fruit-Finish by Spraying when it's really Hot and Sunny even if you're just spraying Water.

**** The Last 7am-Swan-

Ionn-Phil-Amy-MSU-Meeting of the Season was this morning

Our huge Thnx to Amy & Phil for their Dedication & Hard Work producing these Meetings every Week for 13 or 14 Weeks...???

What a Blessing they are !!!! Thank You--Thank You--**Thank You !!!!!**

Just a Reminder that these Redox Products mix in very nicely with all of our Fave Chemistries No Issues.

Good Insecticide-

Values *Imidacloprid4F *BioProtecPlus *Assail[**Azomar**] *Diazinon 50W *

Good Disease-Control-Values *Abound[**Azoxy 2SC**] *FormulaII-SW *K-Phite 7LP *CS2005

****You Guys Lookn at Virus for Codling Moth

Let us know asap if you want some of the ViroSoft from BioTepp. It is apprx 1/2 the per-acre-cost of the other Virus Bio-Chemistries available.

**** **Some Blues Boys now Applying RxSupreme...** and will soon be doing DiKaP...

**** **Looks Like *Grant and *Fremont**-Aetna Stations tied for most ""Primary-Scab-Infections"" with 13 Events since 1st Green in Apples.

**** **Grape Guy** ...Asked about the new generic Assail "**Azomar**"
...Yup ...Rated "E" on several Pests in Grapes ... Do 2.5 oz-Ac...
\$8.85

**** **Some Pretty Serious Leaf-Spot** Issues in Tarts over West of
the Bay starting to get obvious.
That Leaf-Spot crap is a lot like Apple Scab in relationship to
Rains.... So... This Spring has been really awful.
Those Foliage on the Sweets & Tarts in the 10-Ac-Trial-Block looks
really nice... No Issues.... after a Weekly Dose of CS2**005**.

**** **Check out Reisters.Net** For Details of the "Walt Hill
Memorial Apple Cup"at Moss Ridge Golf Club August
24 Pretty Cool....

Warm Regardsr
