## Fruit Ridge Notes - Friday - February 22 - 2019

**Happy Friday to All You Faves ..... It is SunShiney Again Here !!! Love It !!**

**So Next Week ..... Our Big Meetings Tues-Wedn-Thurs---**You are all Invited....

We'd appreciate a **RSVP** if you haven't yet .... to help with Last-Minute-Set-Up-Stuff.

**616.887.9933 616.678.7708**

...or **"Reply-All"** on this EMail..... Really Appreciate that ....

Remember ...You get **5 Credit-Points for Your RUP-Applicators-License !!**

**You will Meet-Visit** with Some of our Fave Manufacturer Research & Development Folks....

Dozens of our Vendor Associates will have **Expo-Booths SetUp...** All ready & anxious to Visit with You ...

...and They will give you Guys & Gals some cool little "Tickets" that are really Fun & Important when we are Giving Out Door Prizes !!!

There is a Continental-Breakfast-Presentation.... Coffee & Juices ... a wonderful Lunch ....

and Very pertinent Information from some very sharp Speakers ....

...and of course the Fellowship... It is always so Good to See All of You !!!!

These are 2 - 10 Acre Blocks that we have been using for 8 Years now for Trials & Testing various new Chemistrys and Theories and Concepts and Cultural Practices.

Last Season-2018s "Theme" .... or "Goal" ...was to see just how Cheap we could Spray....

Interesting ...On Regular Conventional Pesticides for Insects & Diseases we spent \$262.00-Acre.

**We Will Also be Elaborating** somewhat on the Results of our Apple Trial Blocks done last Summer-2018.

The New Chemistries we looked at very seriously all worked very well.

We looked at some Nutritional-Concepts.... Some Bio-Advanced-Microbial-Products ..... and some New BioPesticides for Insect and Disease Pest-Controls .... Really Quite Impressive...

I thot it was very Noteworthy that the Mo\$t-U\$ DollarS we \$pent on a Conventional-In\$ectcide was \$23 on a 2-Lb.App of Imidan.

---

We're on the Web!

See us at:

[www.reisters.net](http://www.reisters.net)

The **Real-Deal-Excitement** for me comes from seeing such great results with things like .....

\*\*Substituting a new \$15-Ac-BioPesticide for a \$28-Ac-Lannate ....

\*\*And Enjoying Excellent Season-Long EuropeanRedMite Control with only doing \$18-Ac.-Worth Abamectin 0.15EC

**Incidentally...** These 2 - 10-Acre-Blocks are the same 2 Parcels we have been doing all these Years.... They haven't had any Conventional-Traditional-Granular-N-P-K+Micros-Type-Fertilizers that we would normally Bulk-Spread in the Orchards.

We have only implemented the Redox-HiTech-Real-Deal-Science-Nutrition-Program in these Blocks. We have enjoyed very impressive Quality - Size - Color - Fruit Finish - Yields - - - and the Over-All-Tree-Health-Growth & Appearance is Great - - These Cooperators have also **excluded** any liming from their Regular-Grower-Program for these Blocks..... No Liming.

***Please Come Join Us next Week at the Venue most Convenient for You .... and hear more about All of the Above ....***

**Looking Forward to Seeing You .....r**
