Fruit Ridge Notes  
from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Tuesday - July 23rd - 2019

### Happy Tuesday All.....

**WunderGround says expect Low-80's for next 9 Days....** Chance of a Shower early Saturday....Possible ThunderStorm Monday.

**Wind** ...Tomorrow & Thurs predicted light compared to today and Fri-Sat-Sun-Monday.

**So....** Low-80's with SunShine...??? I still wanna start really early AM and be done Spraying by 9 - 10 am.

**I Just** can't believe the RainFall in some places ...???!!! ....Like 12 Inches up around Baldwin...??

I dumped out 1 inch, then another 4/10ths...at Gooding St.

\*\*\*\* **With All the Heat** and the *Big-Blow-Rain* a few Days back ...Some Guys touched up the FireBlight Susceptible Varieties..... and Young-Hi-Dollar-New-Blocks.... with CS2005. 1 Pint-Ac. plus some Redox Nutrition. Remember Strep has a 50 Da.P.H.I..... 30 Da.on Pears.

It's kinda crazy-cool how many of You Guys are doing a pound of Redox DiKaP with the "005" every time they go with "005" ...? ....And are very huge Happy with the results.

I'm really looking forward to all the Info-Share-Meeting-Opportunities this coming Winter to learn more Opinions about the How-Why-Theories.... ...And I do realize the DiKaP has SA in the composition ...and the "005" is also Systemic... ☺

\*\*\*\* **I was just Reminded** of something Amy-Phil-MSU warned us about awhile back ....It sounds like some of you are seeing the damage on some Wet-Foot-Winter-Weakened-Trees from the 'Black-Stem-Borer-Beetles' ....

\*\*\*\* **Some "P.H.I."s** I don't want you to get caught with ..... Actigard-60 Da... Besiege & Warrior-21 Da... Sovran-30 Da... OxyTet/MycoShield-60 Da... Actara & EndigoZC-35 Da...

Keep in Mind the "Generic" names for some products ... Like **Warrior = LambdaCy = Ravage** ...

\*\*\*\* **The Real-Deal-Xtreem-Hot-Several Days** have really made those Trees that were so damaged from Winter and/or Wet-Foot turn brown fast. The Low-Spots get the worst end of both sticks.

I see in some Blocks where some of you Guys have taken some very-front-edge-Steps to Save those Trees has paid off. All the Foliars and Soil-Applied Xtras helped alot. I believe those Trees that are gradually looking a bit better are gonna make it....

....and those places where the Trees are gone/brown...?? ...All of your efforts on the Soil will certainly treat the New-Replacement-Tree just that much better.

All agree the Beautiful-Hi-Density-Hi-\$\$\$Investment-New-Blocks really need well-drained-Sites..... They just can't take the oxygen-deprivation that old-larger-Root-Stocks were capable of tolerating for a few days.

\*\*\*\* **A Smart-Money-Fave** just told me he is goin out with 1 more App Kudos 27.5WDG-PGR...to help shut-down-harden-off the new lush growth. Alicandro says Go for It.

...Yup.....👍.... Just keep in mind your 45-Da-P.H.I.

\*\*\*\* **This Friday--26th--Reisters "'Fruit Ridge Fest'"** Lots of Fun-- Food--Fellowship--Libations---Music---Old Cars and Tractors and MotorCycles ...and some Cool-New Equipment.....

Sooo.... Lookin Forward to Seeing You All.... Right here at 14050 Fruit Ridge Ave....N.E.Corner of Fruit Ridge & 17 Mile..... We are the only business situated inside the TriAngle formed by M-37 & Fruit Ridge & 17 Mile.

Come on over about 3pm..... Have a Brewski with me 'Under-the-Tent'... If You're Driving your Ol Classic ...or Something Newer with all the Ponies...??? We have a Special Parking Spot for You !!!

\*\*\*\* **Yes---Alicandros Big Tour is 2 Weeks from Tomorrow.** If you drive to Wayne County N.Y. going thru Ontario-Canada...?? It takes appr 9 hours.... depending on the Border...??

Border--Have your PassPorts and Drivers License handy. Sometimes it takes 5 minutes ....Sometimes 55 minutes.

We have sometimes had incredibly good luck at the Border and made the Trip in 7Hr-25Min.

If you 'carry'...?? That is a real issue for at the Border. And remember in N.Y. they have some weird new Regulations about who can carry legally...??? It sure makes Your Heart Glad that You're from Michigan.

Going "Around the Horn"... thru Toledo - Ohio - Pennsylvania ...usually costs Ya 1 Hr & 40 Min.average...

And Hey....That Clam-Bake-BBQ ...at 5.30p... Right on Lake Ontario...Sodus N.Y.... Great Food and Libations....and Music... at 'S & L Farms' ... Very very Cool.

Make sure to let Lindsay know if you're gonna make it...asap..... [LindsayLamora@agrassistance.com](mailto:LindsayLamora@agrassistance.com) .... or 585-734-8904

\*\*\*\* **Question..... You're Right....** Thnx.

I agree it would seem that with all the recent XtreeemHeat that the Leaf-Drop-Necrotic-Leaf-Blotch in Goldens would be an Issue already....?? I havent seen any either.

Lookn at a lot of Goldens in the Trial-Blocks.... and other Blocks. The Weekly "**005**" has not aggravated any "Necrotic" in these.... While all agree the ol-conventional-blue-paint-sludge-coppers really aggravate Goldens Foliage-Necrotic-Leaf-Blotch...

Enjoy the Low-Humidity..... Love This.... r
