******Clarification...Reacting Plant Nutrition... ISO-9001-Certified**

Manufacturing for Carbon Based Nutrition. Redox *is the "One+Only"*.

Of course there are Synthetic Chemical Manufacturers making Pesticides
that Legally have to be in a Facility like this.

But what I meant was about Nutrient Folks... There are None.... except for
Redox.

****** Some Great Questions & Discussions in the last 48
Hours..... a Qwik ReCap....**

...A Sharp-Guy-Grower-Pal told me he had great results last Season on
Pear Psylla using 5 Pint-Acre-**Venerate** & 2 Qts-per-100 Ga.**Vintre**

...Yup--Alicia knows the last FRNotes posted on Reisters.Net was May
28.... She/We have been really swamped....as the Ground dries out a bit ...

...Yes...All **Parka** Purchases are included in the huge Discount. Happy
Happy. and that **OxiDate2.0** Deal is Really Sweet Also !!!!

...Indeed...The "'005'" is going on those Trial-Blocks 1 FullCover Weekly.
But **No**...No hassle...No BlueEquipment Clean-Up... TankMixes with
Everything.

...Yes...I will Repeat...There's 40 Phites on the Market. Only 3 deserve to
be in your Tank....

***Formula.II.SW ***K-Phite7LP ***Formula I....

That K-Phite is the only Phite Registered as a Bactericide. All others
are only Fungicides.

And our SuperPhites Tank-Mix with whatever we want. Most all the
other Phites create stories you tell at the Bar.
