Fruit Ridge Notes  
from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Thursday - May 7 - 2020

### Happy Morning .... on this National Day of Prayer ....

It did not get as Cold this Morning as some Folks were predicting... 😊  
So...Thanking our Creator God...on this National Day of  
Prayer... 🙏😊 ...And...Lets Pray that He brings us thru Tomorrow &  
Saturday AMs the same way...  
There are actually several Mornings of serious concern coming up  
...Looks like all thru next Tuesday 😞...???

Our God is in Control... Our God Wins... Its all in His plan... Romans  
8: 28

\*\*\*\* **Even in the SunShine....** Growth-Development in the Blues &  
TreeFruits is Sooooo Sluggish ....

Walking the Orchards ....Taking the same path as 3 Days back.... There  
is hardly

any more little traces of Pink now than there was Monday-Tuesday !!  
And....the Bloom in Sweets is just sittin there....Vulnerable....

\*\*\*\* **So....Lots of Foliar-Appln-Measures being Employed  
now...**preparing as best we can for the Predicted Freezes...

😞 The biggest thing our Pacific-North-West Associates are doing when  
presented with this same Scenario...???

2 - 4 Lb-Ac- DiKaP....  
Ask your Yakima & Wenatchee Pals out there... All the Big Boys workn  
with **G.S. Long** Inc. out there...👍  
Here....Stop and think.... 'Who is the biggest Chem-Supplier around the  
Ridge'...???

Well...those same Guys *used to be* the biggest out there-in the  
PNW ... but Gary Long is blowin their doors off. The old regime has a  
"Nutrient Program" that they claim is better than Redox...??!!?? And  
yet all those Heavy Hitter G.S. Long Disciples that have tried it, cannot  
see that it does anything at all !!! Nothin !!! .....and all the while, Redox,  
actually costing considerably less-Acre, is gaining huge Acclaim with their  
incredible results !!! *Sooooo* Huge Fun !!!!!

\*\*\*\* **We are sending Up Thousands of Thank-You-Prayers .....**

.....for Willie Schweitzers successful Heart Surgery yesterday

!!!! 🙏👏😊👍🙏

Amazing what Modern-Med can do NowaDays... Especially when our  
Creator God is coaching them...

And... Did I tell you lately that Joe LeDuc is doing Xtremely Well..??? He has a new Heart... underwent a TransPlant Surgery acupla months back... Our God Wins... just keeps Winning...

\*\*\*\* **We are Currently Putting Together** some very Interesting Protocols for our 2 - 10 - Ac.Apple Trials--2020..... Cool Stuff.... Front Edge...

\*\*\*\* **I Do get the Biggest Kick** ...Out of Alicandro and some of his Quips...Like ...Referencing... "When is too early for Calcium in Apple-Foliar-Applns...???"

He said February-March...😂👏

Seriously .... Researchers have proven that the initial huge Early-Spring-Flushes of New Growth uses up the Calcium reserves .... Thereby diverting it away from the Calcium-Needy-Blooms & Fruitlets... We gotta build those levels....Starting at Pink ...or like right now... ..Especially on the Honeys.... those are special Calcium Hogs... Getting Ca to them Early & Continually is critical for BitterPit control...

\*\*\*\***New Yorks Wayne County**....Largest Apple Producing County in the U.S..... East

of Rochester.... is also having some scary Cold-Temps....😞

\*\*\*\* **Rule-of-Thumb.... For our Fave ORO-Agri**

Products.... Watching Some of Ya'll using these very successfully & regularly in Foliars on Fruits & Veggies ....👍 Using as a Tank-Mix-Partner-Adjuvant-Etc---

--- **1 Pint-per-40-Gal. Water... or use a 1 : 300 Ratio....**

... or if you have a 500 ga.Tank...??... Dump in a Jug.

I wouldnt use less than a Pint-Acre.... Almost Never...??

OK..Maybe not with Aerial Appln @ 8 GWA...😞...???. Then maybe I do 8 oz-Ac.

\*\*\*\* **Q & A ....**Yes.... OxiDate 5.0 and CS2005 *indeed do kill* Bacterial-Molecular-Targets ....Lots of them ...All different kinds.... and also Fungal Pathogens.... and yup we can and we do use them together...

....and yes, some of that Bacteria is the stuff that the Freezing-Process likes to use to kill our Blooms and our Biological-Fruiting-Process....

Considering this Scarey weather....

**Romans 8: 28.. "All things work together for good for them that love God... to**

**them that are the called according to**

**His purpose."**
