Fruit Ridge Notes  
from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Wednesday - June 24 - 2020

### Hello All... Wednesday... Still No Rain...

It Really acted like it really wanted to Rain last night ....  
... Like 3 times I thot it was gonna give us some Rain...Nothin...  
WunderGround 10-Day now saying 9 of 10 Days with Sun.... with 90%  
Chance T-Storms this Saturday-AM...  
Thanking God for Irrigation !!

\*\*\*\***Q & A...Yup ....**The International Distributor for BioShot... the  
same Guys we get VitaZyme from. Made in the U.S.A.  
"AgBio Tech"... These Guys are Good-At-It... They know their stuff.  
BioShot comes in 12 x 1 Liter Bottle cs ...Costs \$137-Btl ...and some Folks  
just dump in a ...Bottle for 10 - 15 Are-Tank... But remember ...a Liter is  
almost 34 oz... So...On Younger Blocks--Smaller Trees....Use 1 Btl-per-20-  
25-Acres. On the bigger-Older-Trees...1 Btl per 10-15-20-Acres...

\*\*\*\* **Re-ReMinder...**Yup...I just mentioned this a couple times lately  
...that's why I didn't Repeat yesterday...??  
In that Tank goin on the Young-Stuff for F.Blight - Disease  
Control.... You'll want to also have some Imidacloprid and Warrior  
1EC/LambdaCy.  
This Stuff is Soooo Low-Cost-Hi-Efficacy....  
In these 1-2-3-Yr-Old-Hi-Investment-New-Orchards.... You can "Dial-  
Down" the TRV to like 30%--35%...??? ...or less...??  
So...This is what I would be doin in the-Young-Stuff-per-Acre after I  
Calculate & Dial-Down...???  
Per-Acre---with Xtream Great Coverage....

16 - 20 oz **SAver**  
12 - 16 oz **"005"**  
24 - 32 oz **F-II-SW**  
12 - 16 oz **OxiDate"5.0"**  
1.5 -2.5 oz **Warrior/LambdaCy 1EC**  
2.5 - 3 oz **Imidacloprid 4F** ... **This Above is aprx \$20-Ac**  
**Gets me SAR, BioStim, a poke of N-P-K, Zn, Multiple**  
**Bactericides & Fungicides & Insecticides...**

**If You see Strikes-Symptoms ...??? Also Do....**

1 - 1.5 oz **Kudos...** In some Cases. Remember this slows down the Tree-  
Growth..

16 - 24 oz Strep ...  
16 - 24 oz MycoShield ...If you know for sure your gonna get  
Damaging Storm conditions...  
Dont worry about any Days-P.H.I. on these little Guys....

\*\*\*\* Q & A... Choose One...??? 🤔 😊 Wow... Tough  
question...

How bout I just tell you which Redox Product is the most Popular-  
goin-out-the-Door-Volume...????

That would be the DiKaP.... Foliar-Use Rate ranges from 1 - 4 Lbs...  
Soil-Apps 2 - 6 Lbs-Ac.

Analytically ...a 00-31P--50K... a 'Reacted Plant-Nutrient High in  
Potassium & Phosphate'... DiKaP reduces Oxidative-Stress  
resulting from temperature extremes and Water stress.

But...Redox has 22 very HiTech Products ...Each has a very  
specific purpose... It is truly a Strategic Approach to Nutrition. No  
wasted Money... No wasted Moves .... all part of the Strategy.

And Yes---The DiKaP is the one that's very popular for helping  
increase Red Color. In the PNW the Guys are doing a better job on  
Red Coloring with DiKaP than the next closest contender which  
costs nearly 5-Time\$-More-\$\$\$-per-Acre !!!! The Researchers  
watching these Trials in Klickitat County WA was A&O AgResearch.  
Some of you guys know those guys. And the Growers are Sooo  
Happy with this Result as this is just part of their Redox-Nutrition-  
Strategy !!!!! Crazy Amazing.

**G.S.Long** ....a Huge Agri-Inputs-Distributor there in the PNW, is so  
very huge impressed with the \$ucce\$\$ of the entire Redox-Product-  
LineUp... Thousands upon Thousands of Acres that are no longer  
doing the Ol-Fashioned-Granular-N-P-K+Micros Type Hi-Cost  
Option. They have "'Stopped-the-Bleeding'" 😊 🙌 😎 😊 👍

God Bless America !!!!
