## Fruit Ridge Notes - Thursday - September 12 - 2019

### **Hello Friends ....**

**Wow....** Some very excited Weather moved thru the general Area last Eve.... Quite rambunctious ....  
I haven'd heard of any damage to any Crops yet ...??

**\*\*\*Recently Visited** with a Apple Guy about his Golden Supremes.... He says they are very-smooth.... Beautiful. And this after several ""**005**"" Plus Captan applns... He also uses a few ""1-2-3"" Applns...which of course also contain the ""**005**"". So...ReCap....  
He has Spotless Fruit.... No Diseases.... No Russet... Used a bunch of ""**005**"" - FormulaII-SW - Regalia - Captan and some 'EBDCs'[KoverAll/Fortuna WDG]

**\*\*\* The Blues Guys** are gearing up for their Post-Harvest- Applns.....

The most popular-consensus-Tank-Mix for Foliar seems to be....  
24 oz DiKaP 24 oz OxyCom 24 oz CS2005 48 oz FormulaII-SW & 16 oz VitaZyme

and...for Soil applied...Into the Weed Control Strip ....  
16 oz DiKaP 16 oz Rootex 1 Lb H-85

These 2 Apps supply needed 1st-Aide from the Harvest Rough & Tumble and help for Carb-Storage and Root-Flush.  
Keep in mind these Blues Guys doin a bunch of the Redox Strategy are getting much better Yields and Quality ....and...

Saving a bunch of money when compared to the Recommended Program from the BNR down the street....

**\*\*\*A Buncha Guys** very Revved Up about the New **OxiDate 5.0** ....  
.....which most OxiDate **2.0** Fans will be switching to.... It will require less handling of product and less co\$t-per-acre.

**\*\*\*Some Grain Pals** fairly optimistic that the SoyBeans will make it .... Jury still out on Corn...

**\*\*\*Yes--Still Time** to Talk to Deanna about that Paraquat 3SL.... But Hurry... Early November

[www.reisters.net](http://www.reisters.net)

So.... your future Paraquat-Gramoxone Needs are gonna quickly become a serious pain-in-arse-expensive-proposition ... Available only in special packaging....for use with "Closed-Systems" ...gonna be tedious....Ugly....Costly

**\*\*\*Q & A...**Yup ...26 oz-Ac is the most common Blush 2X Rate.... I like 1 Qt.

I recommend 1 Qt Blush2X & 24 oz DiKaP ...and You can add your 1/2 Pouch ReTain in this Mix...

Have a Nice Evening ....
