WunderGround Folks...in their 10-Day ForecastCalling for 8 Days with some SunShine...but only 1 day where it says 'Mostly Sunny' ☹️

But **No measurable Precip Forecasted !!!!!** ...This is Huuuge Good News. 🙏

As Always... There's Lots of stuff to get done after Harvest is finished

Our Sincere Sympathies and Heart-Felt Condolences going to our Dear Friends **Jean & Pete Nyblad**....

.....Jeans Mom, **Edith Sapak**.... left for her Heavenly Home after a battle with Cancer. She was 76 years old.

Linda & I had a few opportunities to hang-out with Jeans Folks, **John and Edith**. They were always so delightful... Edith was a real Sweetie... a genuine Lady & Patriot. John & Edith are from the Saginaw area.

May our Gracious God Bless John...and Jean & Pete, as they deal with this void their Beloved Edith leaves behind... 🙏☹️🙏

This Weekend... Saturday Night / Sunday AM....

We set our Clocks back 1 Hour We get back that hour they took away last March 8th....

So.... Not a Redox-User..??? Have you been seeing & hearing the Good-News from a Redox-Strategy-Operator Friend or Neighbor...??? Remember...the Key-1st-Step to get a good start into the 'Strategy' is to "Stop-the-Bleeding".... Stop right now... Stop doing the old traditional Granular-N-P-K+Micros-Dry-Blends that are costing 'All-the-Money'....

Plan to attend our Winter Meetings... More to come....

**** **There's Gonna be a Bunch....** of the 'normal' regular routine Meetings we have gotten accustomed to in our "Off-Season"... that are likely not going to happen as per the 'Norm'... But....Keep watch in these Fruit Ridge Notes and at "Reisters.Net" for the Reisters Winter Informational Meetings... It certainly looks like we will be back on Track...Business as Usual... 🍌🙌👍

******Recently Noticed Some Apple Guys doing "Post-Harvest"....**

Saturday I visited with a Front-Edge impressive Grower-Pal and he verified this Tank-Mix-Recipe he was doing.... This one is for a Block of Honeys that's kinda too close to a Neighbor with F.Blight issues.

He uses the InSpray-90 & Indicate 5... 1 pint-100-Ga-Each...and then....

Per-Acre...

1 Pt VitaZyme [or 2 oz-Bio.Shot]

24 oz. CS2005

4 Pt. ZincRush

12 oz. BoronExtra

4 Pt. Formula-II-SW [or K-Phite]

3 Qts. GreenFeed-27

.....and thenOn some other Young Production locks... He is doin the

1 Lb. TriPlex Micro... and 2 Lb. DiKaP

He said he is doing it this way kinda because he has these products 'On the Shelf'...these being a huge part of his regular program...

Other Front-Edge Tree-Fruit Guys are now using a more totally-focused on Redox-Product approach.

My "Hats-Off" to the "Coopersville Observer"....

....The BiWeekly Community NewsPaper that delivers to much of Ottawa County....Hopefully several Thousands of Readers...??? They had a very good "Letter to the Editor" in their most recent Edition... sent in by Troy Goodno.... Very good piece....

Thank You to Troy...and Thank You to the 'Observer Staff'.... 🍌

Gods Peace Locked & Loaded....r
