That's why I sometimes get Guys calln me up saying...Example'"Hey Last Monday you said '1 Lb.-per-Acre-DiKaP' and now you are saying 2 Lbs-Acre...???'"
Whenever you catch one of those, remember it really depends on your Target...Your TRV... Your Specifics.
That's why I sometimes use the '" 1-2-3 Lbs-Acre'" terminology.

**** **Acupla Blues Boys** also mentioned they are doing a 1 - 2 Qt-Ac '**GreenFeed-27**' Nitrogen-Jolt in with their '"Post'" on Blues they have finished Harvesting.... Cheap--Smart...
