Fruit Ridge Notes - Tuesday - March 10 - 2020

Greetings Pals

******Do You Get the "agr.news"** and "**agr.tips**" from Jeff Alicandro ...???? I see this morning it was a "**agr.news**"

Talks about dormant chlorpyrifos sprays in your orchard crops in 2020... good idea? (yes, but your fruit buyer might not "allow" it. Be informed!) I think we subscribers get around 130-140 "**agr.news**" per Year....??? And then also "**agr.tips**" quite frequently...like maybe 20-25 per Year...???

Anyway.....

******If Ya'll** want to Subscribe to "**agr.news**" Pls Reply-All on this with your Info...the DeeTeam will get you Signed-Up.... and Yup...It's \$500 per-Year

**** Last Week....

We celebrated the Life of a Great Guy... a Great Friend... a Great Trucker who worked with me for years... a Great Fellow Believer and Trinity Lutheran Church member ...a Great Father and Husband and Great Grandfather.... "R.J." Schaefer. His parents called him Robert John.... R.J. leaves his Beautiful Bride Elizabeth Marlene here with us for a bit... to join him later in Heavenly Bliss ...Two great Christian Patriots.....🙏❤️🙏

******Is Your Gala Fruit Size Consistently too Small ???**

Step 1...is to Dormant Prune much more aggressively. Very aggressively.
Step 2 ...Go early with your Thinning...shortly after Bloom...Exilis Plus and 2 - 3 pint Sevin...and for most blocks, plan to repeat with a 2nd App.
Step 3 ...Alicandro has, for several Seasons now, proved success with NovaGib for increasing Fruit Size and making better Fruit Finish...by doing 3 to 4 Apps 7 - 10 Day intervals, starting at early Petal Fall. 🤔👍
Sizer XL helps with **Gala's** sizing too!! Start applications at Petal Fall, 2 qts/acre every couple weeks until harvest.

******REMINDER**

We have started the scab infection 2020 contest
Please EMail us with Your Best Guess of when we will get our 1st MSU-

14050 Fruit Ridge Ave
Kent City, MI 49330
