Fruit Ridge Notes - Tuesday - August 18 - 2020

Hey All ... A Beautiful Tuesday

WunderGround 10-Day still calling for 10 of 10 Days with SunShine....
Average Hi-Temps=82°F...Average-Early-Morning-Low-Temps=60°F.
There's still almost Zero -0- Precip showing.

**** **And.... Not so Beautiful....** The Craziess protruding from the WackJob now occupying our Governor's Mansion in Lansing... With all the NonSensical-Crap she keeps rollin outNot Beautiful.
Now she is ordering all AgWorkers to be Tested for the WuhanChina-19-Virus. All the Harvest workers...Everybody... and if one tests positive the entire Crew has to be quarantined for 2 weeks...???!!!!!

I am Soooo Glad we did that Petition-Signing-Gig last week at the Fun-Deals-Days at the Warehouse.... We got lots of Signatures to stop this MachoManiac in Lansing...

**** **Please Know that the New Label** on the "**SaniDate 5.0**" now has a Broad-Coverage for the WuhanChina-19-VirusCrap...

Just do 2 oz-per-5 gal.Back-Pack... This is for around Farm Markets and Equipment---Packing House---Etc...
-----Not to be confused with it's brother "**OxiDate 5.0**" that we use in the Orchards at 2 Qts-per-100 Ga.

**** **Apples are Sizing Reeeeaally Well....** I especially like to watch those Blocks where the Grower has "Stopped the Bleeding".... Now doing only the Redox Strategy....and Enjoying superb Results.

These Guys are doing no more Hi-Cal-Lime-Bulk-Spreaders.... No more Bulk-Dry-Blended-Granular-N-P-K-+Micros... They are doing only what the Crop really wants and needs.

Some Guys that struggle trying to get their head around how this can be, have asked..."How long before that 'reserve' in that Soil-Matrix runs out..??" Here's the thing...Some of that 'reserve' is like rock...like granite... Some Experts say 300 years for even a little of that to be available...??
Andthat HiCal Lime....those little white-hard-chunks-LimeStone that you see...??? Those take even longer. The only reason those are in there is so they can get the Lime-Product all out of the Hull of the Ship... If it weren't for those little hard chunks, that HiCal would set- up like Cement in the bottom of the Freighter... My apologies to All Ya's I used to sell the HiCal to 20 - 50 Years back...??? I did not know all the Facts. Now you know the "Rest of the Story"...

I have heard from Nobody... I have heard of NoOne...that regrets having "Stopped the Bleeding" ...
.... So Far ... To Date.... All are 100% Happy with the phenomenal results they get with the Redox Strategy... Even where there is no Irrigation...Beautiful...

**** **A Grower Fave** just reminded me that he has never received any new Apple Trees from "**Wafler Nursery**"--Walcott N.Y..... that ever had any Fire Blight in them.... while he has received very seriously bad F.Blight in Trees from the PNW **2 out-of-3 shipments** !!!!!.....
When you ask the Wafler Guys about the F.Blight....They just say..."Ya gotta use MagnaBon" 😊😊 Some of our N.Y.Pals always call our Fave "**005**" by the Manufacturers Name... **MagnaBon**... That's Frankie and Veronica Miele and Family.... a Family owned Manufacturing Facility--Okeechobee Florida... a Mon & Pop.... kinda like Reisters Grower Services.... and now we praise our Great God for the "Exit-Strategy" He has orchestrated for Linda & I...with Deanna & Matthew & Alicia & Nancy doing such a great job of handling everything so well !!!!

..... God Bless America !!!!

Warmest Regards....
Locked & Loaded...
