Christmas Cheer to All Ya's CHRISTmas Day only 1 Week Out !!!!

..... 16°F and Snowing here---Gooding St...Home Office.

*****We had Folks from Canada** visit our RGSs SuperBooth at Expo.... Expressing their impatience with the "Registration-Delays" for us getting MagnaBons "'CS2005'" Systemic Copper Bactericide-Fungicide into Canada for all of their Fruit & Veggie Growers. There are some great relationships with N.E.-U.S.Growers and some Canadian Fruit Growers..... People talk. They want "'005'"....

*****Some of You have Heard-Seen**the Results of the 2019-10-Ac-Apple-Trials here in the Ridge... the "'005'" completely controlled Apple Scab in 1 Block, and kept the Foliage clean in the other Block. And 2019 was a brutally ugly & fierce Scab Season. It's impressive to me that we had no other certifiable "Scab-Fungicides" in this Protocol. No ButtKickn SuperPhites like K-Phite or Formula-II-SW in these Applications. Think about that.... Ya gotta know how it grieved me not to have my SuperPhites in these TankMixes !!!!

*****I Want to Again Fondly Mention....** the **Fave Manufacturer Pals** that Sponsored our Breakfast Meeting at Expo....

++ **Cultiva**
++ **BioSafe**
++ **MagnaBon**
++ **ORO-Agri**
++ **Agrinos**
++ **Fine-Americas**
++ **Avian**
++ **Redox**
++ **VitaZyme-AG-BioTech**

..... We Sooo Appreciate these incredible Front-Edge Manufacturer Friends !!!!
