**** **Yup...Matthew will Pick-Up those Empty Totes** that we brought to you with Products...

We don't ever charge Deposit on those, even tho some of our Vendors do charge us Deposit...??

So...We appreciate getting those back when you have used up the Good-Stuff...

**** **The Use of "NAA" ReFine...** for Return Bloom is for those Mid-Summer applns.... Not around Harvest time unless you are trying to hold Fruit on the Tree.

******For Your "Post-App"** be sure to have **VitaZyme or BioShot** in your Tank for Return Bloom.

And...

Some Apple Guys with beautiful-new-Hi-Dollar Blocks ...doing a 1 Qt. Systemic""**005**"" right now.... because they saw some FBlight symptoms...

Dial the "1 Quart" down with your TRV.

...and then later...2 Weeks out..They intend to come back thru with a Full-Rate-Blue-Sludge Ol'Copper.... Jeff Alicandro likes that BluCopper Residue plastered on those Youngns...going into Winter where you've had FBlight Issues, and also to shut the Youngsters down for the UpComing Cold... I concur..... But I just feel Soooo bad for all that blu-sludge-paint all over that expensive Equipment...😞😞😞
