Fruit Ridge Notes - Maundy Thursday - April 9 - 2020

BeLoveds.....

Maundy Thursday Another name for "**Holy Thursday**"

... Commemorates the Events of the Thursday before **Good Friday**...
.... the "Last Supper" and...

....the Hoax-Trial with the "Chief-Priest-Pharisees & Sadducees" ...

....and then on Good Friday the Crucifixion of our Awesome Savior God....
Much much More.

Many "Protestants" call it 'Maundy Thursday' But I think most of the Christian World calls it "Holy Thursday" ...???a Hugely Important part of our "Holy Week" which culminates with the Glorious Easter Sunday !!!!

SoOnly in West-Central-Michigan...???

Seriously ...Just NowRight OutSide my Window....

...Not Kiddn... SunShine with real Shadows... big Wind Real-Deal-Snow-Shower... plus Rain ..!!!!

ForeCasters are mostly all calling for some authentic November Weather They're thinkn some SunShine tomorrow... and a little bit Saturday. They mentioned more Rain Sunday more Snow possible Monday.

High-Temps ranging from 39* - 53*....Mostly all Low-Mid--40's... 😊 November...

**** **I cannot find Anybody....** that was calling last Nights Rain-Event a Scab-Infection....???? 😞

Maybe there was some somewhere ...??? I just dont know for sure of any.... 🙄

**** **Remember Fire-Blight Potential-Threat** is a Farm-Wide-Issue.... Even on Varieties that are really not all-that-Susceptible. And it is also a Neighborhood Issue... Be a Super-Neighbor Keep your Fire-Blight-Threat at a minimum....

All you need is 12-16 oz-Ac-CS2005 in 3-4 Tanks.... and wherever you have had serious Blight Flare-Ups in the past, do 16 oz-Ac 5-6-7 Times....

"005" Tank Mixes with everything at least everything you hear & read here in FRNs.... "005" just simply gets along with everybody. And No-Dastardly-Blue-Sludge-Nuisance-Paint.... that you spend huge Time\$\$\$Money scrubbing off your Beautiful-Hi-Priced-Equipment...

Magnabon"005" rapidly gets into the *System* of the Plant-Tree... "*Systemically*" ... It's in there ...continually Protecting.... and it is so Cost-Effective..... having Efficacy on all 10 Apple/Orchard-Diseases we have to watch-out for....

**** **Remember All of the Folks** that You are Very almost Legally Obligated to, and... those that you are indeed really Legally Obligated to to have your Legible-Up-to-Date-Spray Records ready for Inspection ????

I have my RuffDraft....What I actually did...and all the conditions...Etc.

I also have for certain Auditors a Cleaned-Up-Version.... and

I also have a 3rd Version for some other Folks. The most Important of these is Your RoughDraft....

**** **Q & A.... Yes...** I see what You mean...

Merivon is Labeled for Raisin Grapes & Wine Grapes...not Juice Grapes...???

On the other hand, it is only claiming Powdery Mildew Controland costing \$33-Acre....

So.... I most assuredly would not be doin that anyway...

Warmest Regards.....
