Fruit Ridge Notes  
from Ron Reister  
C.C.A.

## Fruit Ridge Notes - Wednesday - Jan. 22 - 2020

*Greetings Friends .... Wow ...I actually see Shadows !!!!  
The Sun is Really Shining !!!!!*

Lookn at Extended Forecast... not much SunShine... The next week or so is supposed to be all Highs in the 30s... and the lowest night-time-Temps in Low-Mid-20s... Sounds like some slushy Snow tomorrow--Friday--Saturday...

**\*\*\*Q&A.... Yes... Our Ridge Area Apple Trials** did Indeed Prove that **"005"** Systemic Copper-Bactericide-Fungicide did indeed completely stop and control and prohibit Apple Scab in 10 Varieties in 2 separate 10-Ac-Locations... through-out the fiercest Scab-Year I can remember. We also proved that **"005"** is weak on controlling Scab on the Fruit-Tissue. We had 1 variety...a Triple-Red-Delicious-Type... very susceptible to Scab...that we were 1 day late with a Late-Petal-Fall-Appln, and we did get Scab on the Fruit only...None on the Foliage.

**"005"** .... All by itself. No other Scab-I-Cides... So ...When some UnInformed "Expert" tells you that **"005"** doesn't work...??? Just tell him that the **"Serious"** University Researchers....and nearly a Thousand Fruit Growers across the Country have Proven him and his idiotic claim Invalid ...False... Untrue.... BullCrap.

I believe the main reason for this **"005"** performance is that it is **Systemic**. All other copper formulations on the market are not systemic. Real-Deal-Researchers have actually refuted a Manufacturer for making the "Systemic" claim. 😊👍

When one Real-Deal-University-Researcher was asked if he would do a targeted-study to prove that **"005"** is systemic, he replied..."That would be a waste of time. I have 75-100 Growers that are proving that every day on "the Greening" in Citrus."

**\*\*\* There was much good discussion at the NWMO&V Show....** Some Growers very interested in certain Manufacturers ...Specific Products & Targets.

We are seriously encouraging more of You to contact us about setting up a private Meetings with You and your Fave CSR and your Fave Manufacturer Rep.... and/or your Fave Dee-Team Member....to **strategize** for specific Issues-Targets.

14050 Fruit Ridge Ave

---

We're on the Web!

See us at:

[www.reisters.net](http://www.reisters.net)

Example: There are 2 Growers helping determine a Time & Place that fits for them and Eric Massey and Steve Paul to huddle up for 1 - 2 hours. They also asked Deanna or me to be there.

Guys & Gals...This is a very good idea.... to help clarify a lot of Details.... Details of how to cover all the bases....while you "Stop-the-Bleeding" ...Saving Input Costs.... Getting better Quality & Yields !!!

Just Call us to set-up something ....616-887-9933....616-678-7708....Deanna...616-826-5104 ...Ron-616-437-0073

Warmest Regards....
