Fruit Ridge Notes - Monday - September 21 - 2020

Happy Monday to All.... Hoping You Had a Splendid Weekend...
Hey ... Last Day of Summer !!!!!
....the "Fall" starts 9:30 AM Tomorrow !!
.....**WunderGround 10-Day**... Certainly Fall...But a Moderate Fall...??
Forecast saying... A week from tonight a chance on some Rain...
The Temps expected for Highs...the next 10-Days...
73*--76*--78*--76*--79*--79*--71*--65*--59*--61* ....so thats averaging almost **72***F...
...and the Low-Early-AM-Temps starting tomorrow...
50*--56*--57*--53*--58*--59*--55*--49*--45*--44*....Avg==**53***F.
So....a tad bit more moderate than the Forecast last Friday when those Avg-Temps were 70*F and 50*F...??

****** Thank You ...for the "Memory"....**
A Fave Grower Pal reminded me of last Seasons 2 - 10-Acre-Apple-Trials... When we used only the "'**005**"' Low-A.I.Copper from MagnaBon... All Season long... Used on 10 Varieties...No other Scab-I-Cides... no other Fungicides... And had Zero Disease Symptoms except for some "'On-the-Fruit-Only"' Scab on Red Delicious !!!! No Scab on any Foliage !!! No Scab on the other 9 Varieties !!!
We proved that if we stay ahead of the Weather, the "'005"' did it all !!!
We used our Fave-Alternate-Center-Mondays & Thursdays Program...thru end of Primary...Then 1 Alt-Center-per-Week for Cover-Sprays.
That entire Report ..the Protocol and all of it ...is all listed and elaborated on at Reisters.Net ....
.... just scroll down and clic on "'10-Acre-Apple-Trials"'

****** Some More Apple Guys** complaining of Small Fruit....??
Pleeeze ....
If any Ya'll on the Redox Strategy are experiencing a Sizing Issue...??? *Pleeeze ...*
....Let me know ***as soon as possible..!!!!!***

****** Some More Blues Boys Reporting** in .... Having their final Pack-Outs-Reports...
